Ferrari is looking for the best engineering students (Master degree) graduating in 2018 or graduated during the last 12 months.

A job in Ferrari means working with engineering excellence and innovation at the highest level. In Ferrari you will get opportunity of designing, developing and testing technical solutions and applications, in one of the most professional, meticulous and high-profile engineering team. In order to succeed in this challenging internship, you will ideally have achieved excellent academic results in the area of **mechanical, vehicle, electronic, electrical, materials, management, production, computer science, automation, aerospace engineering**.

According to your dedicated interest in automobiles, racing and performance improvement, you preferably should have **experiences in Formula Student** or similar engineering initiatives and competitions.

In Ferrari you must exhibit the capability to think analytically, target-oriented and structured. You have to demonstrate strong communication skills (such as the ability to listen as well as in-depth reasoning). You will be expected to work independently as well as incorporate as part of a team. We require attention to the detail and awareness of the responsibility that comes with your role. The effective completion of your daily tasks requires you to be a proficient user of Microsoft Office (Word, Excel, PowerPoint & Outlook).

We can offer internship integrated with your Master Thesis or post-graduate internship if you are graduated less than 6 months ago.

Fluent English is a must-have, while a good level of Italian is an advantage for your best local integration.

To apply for a pre-selection please send your short CV (no more than 1MB) by **May 14th, 2018** to:

orientamento.spsb@unina.it

specifying: **“Ferrari meets SPSB”** in the subject field.
