Internship and Graduate opportunities in Engineering, Manufacturing Engineering, Commercial, Customer Management & Services, Health, Safety & Environment, Purchasing, Supply Chain Management, Operations Management, Project Management or Human Resources.

We create high-performance, integrated power solutions for use on land, at sea and in the air. From super-efficient jet engines and land speed records to powering Astute-class submarines and supersonic jets, our ambitious people make cutting-edge engineering a reality. The ideas you share and the conventions you challenge will influence how we go further, deliver faster and create better.
